

Positions Vacant

2x VR GPs

VR General Practitioner

Are you looking for a change of scenery in a wonderful rural community that can offer you a rewarding career along with a much sought after work/life balance?

We are currently seeking two full time VR GPs to join our team in Kerang, Victoria.

Kerang is an easy 3 hour drive north-west of Melbourne, whilst also being a central hub for public transport connections within Victoria and interstate. Nestled in close proximity to Bendigo, Echuca and Swan Hill, Kerang is a gateway to majestic wetlands, lakes and rivers. Whether it be fishing in the Mighty Murray River or boating, skiing, camping and birdwatching; the Kerang region will not disappoint. As a small rural centre, we have services and facilities that will make you feel like you haven't stepped out of Melbourne, boasting four highly performing Primary Schools, two High Schools, an Extended Hours Childcare Centre, an airport where you can try your hand at flying; along with a multitude of sports and recreational activities.

Working in Kerang is more than just a job. We are committed to providing excellent care to our community knowing that our loved ones access our services regularly and deserve the best experience. We want you to become part of this lifestyle too.

So what does the job involve?

You will walk in to an established patient base with two highly experienced practice nurses to assist and help streamline GPMP/TCAs and Health Assessments. There are friendly and efficient reception staff to ensure your appointment list always runs smoothly.

You will have patient admitting rights to Kerang District Health and participate 1:7 in a VMO on-call roster for after-hours emergencies. Kerang District Health has experienced RIPERN trained nurses and nurse practitioners to compliment the care of patients presenting to the Urgent Care Centre. Kerang District Health also has a 20 bed Acute Ward including palliative care, 30 bed Residential Aged Care facility, Oncology Service, Peri-Operative Services and District Nursing Services which also incorporates community health programs. Radiology Services and Clinical Labs are also located in the hospital along with Visiting Specialists such as Oncology, Urology, Gynaecology and General Surgery.
